

Hyundai OCV 243553C100 24355-3C100 Optimal Oil Pressure Systems

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 24355-3C100
- Minimum Order Quantity: 10 PCS
- Price: \$4.85 ~ \$5.87
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 1000 pcs per day

Product Specification

- Warranty: 24 Months
- Application: For Hyundai
- Valve Type: Oil Control Valves
- Engine Capacity: 2.0/2.4
- Temperature Range: -20°C To +120°C
- Packaging: According To Customers' Requirements
- Material: Metal + Plastic
- Highlight: 243553C100, 24355-3C100

Product Description

243553C100 24355-3C100 VVT Oil Control Valve for 2011-2014 Hyundai Santa Fe Tucson Optima

Product Description:

The **Oil Control Valve (OCV)** is an integral element in a car's engine, helping to manage the flow of oil to multiple engine components. It is usually commanded by the engine management system, which is a crucial factor for preserving the ideal oil pressure and timing for the best engine functioning.

Features:

Our **Oil Control Valve (OCV)** has many advantages:

Firstly, it precisely controls the flow of oil to different engine components, allowing for precise adjustment and ensuring proper lubrication as well as performance of critical engine parts.

Secondly, OCV helps to maintain proper oil pressure in engines that feature variable oil pressure systems. This ensures a consistent and optimal oil pressure, which is essential for lubrication, cooling, and protecting the engine components.

Thirdly, it is built to endure engine operations. It features a robust housing and high-quality internal parts that offer durability, corrosion resistance, and long-term performance.

Lastly, our OCV is a direct replacement of the original component of the vehicle. It's customized to fit the vehicle's make, model and engine, which makes installation easier and problem-free.

Applications:

These valves are designed to be used with Hyundai vehicles, and they are made of high-quality metal and plastic materials, offering superior performance and reliable operation over a wide temperature range from -20°C to +120°C. These valves are available in various packaging options to meet the customers' requirements. They are ideal for controlling the oil flow and pressure, and they are designed to be highly efficient and durable. These valves are perfect for use in oil flow controllers, oil pressure valves, and oil pressure controllers.

Support and Services:

Oil Control Valves Technical Support and Service

We offer a wide range of technical support and services for oil control valves, including:

Installation and setup assistance

Troubleshooting and repair

Upgrades and maintenance

Replacement parts and accessories

Product training and instruction

Warranty information and assistance

Safety and compliance information

Our experienced customer service and technical support team is available to answer any questions you may have and help you get the most out of your oil control valves.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specializing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts, electric parts, steering parts, transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
