OEM Tie Rod End Precise Steering Control 93740722 For SONATA Optima

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 93740722
- Minimum Order Quantity: 100 SETS
- Price: \$2.57~3.57
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box, Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 50000 pcs per month

Product Specification

- Product Name: Tie Rod End
- Car Make: For Hyundai Kia
- Warranty: 12 Months
- Quality: 100% Tested
- Packing: Poly Bag With Carton, After Pallet
- OEM: 93740722
- Highlight: **OEM Tie Rod End, Tie Rod End Steering Control, 93740722**

Product Description

93740722 Tie Rod End Fit For SONATA Optima

Product Description:

A tie rod end is a vital part of a vehicle's steering system. It is found at the two extremes of the tie rod and connects the steering linkage to the steering knuckle or spindle. This part of the steering system plays an immensely important role in maintaining control and steady driving. Tie rod ends enable smooth and deft turns of the steering wheel while driving.

Features:

Superior Construction: Our tie rod end is manufactured using the latest materials and technologies. We rely on robust forged or cast steel, specially treated for optimal performance and wear resistance. With its superior construction, it is designed to last long and endure against the impacts, wear, and corrosion associated with normal driving conditions.

Precise Steering Control: The tie rod end connects the steering linkage to the steering knuckle, allowing the driver's input to be translated into smooth and precise steering movements. Accurate design and a tight ball joint or bushing design make our tie rod end the ideal choice for precise steering control and responsiveness in any vehicle.

Ball Joint or Bushing Design: Depending on the vehicle's specifications, our tie rod end is available in either a ball joint or bushing design. Ball joint tie rod ends are suitable for articulation and rotational movement, whereas bushing-style tie rod ends are perfect for flexibility and vibration dampening.

Easy Installation: We make installation easy with our tie rod end. It comes with all the necessary hardware and instructions, making it a breeze to install for both professional mechanics and DIY enthusiasts.

Support and Services:

Our Tie Rod End product offers technical support and services to all our customers. We have a team of dedicated professionals with years of experience in the industry, who are available to provide technical advice and assistance. We also have a wide range of parts and accessories available for purchase, to ensure that your Tie Rod End product is able to function to its full potential.

We offer a number of services for our Tie Rod End product, including installation and maintenance. Our team of experts can provide detailed advice on the best way to install and maintain your Tie Rod End product, ensuring that it performs optimally for a long time.

We also offer a range of warranties and guarantees for our Tie Rod End product. We strive to ensure that our customers are satisfied with their purchase, and we guarantee that our Tie Rod End product will meet all of their expectations. If you have any questions or concerns about our Tie Rod End product, please do not hesitate to contact us.

FAQ:
