

## Precise Belt Tensioner Pulley Assembly 96350550 Smooth Operation

### Our Product Introduction

For more products please visit us on [automobile-sparepart.com](http://automobile-sparepart.com)

#### Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 96350550
- Minimum Order Quantity: 20 PCS
- Price: \$5.88 ~ \$6.88
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 50000 pcs per month

#### Product Specification

- Product Name: Belt Tensioner Pulley
- Quality: 100% Tested
- Car Make: For Hyudnai Accent For Kia Rio
- Package: Any Color Box According To Customers' Requirement
- Warranty: 12 Months
- Type: Automobile Assembly
- Highlight: **Precise Belt Tensioner Pulley,  
Belt Tensioner Pulley Assembly, 96350550**

## Product Description

96350550 Belt Tensioner Pulley For Hyudnai Accent For Kia Rio

### Product Description:

A tensioner pulley is an essential part of a car's accessories belt system. It is responsible for keeping the appropriate tension in the accessories belt, which drives various engine parts such as the alternator, power steering pump, air conditioning compressor, and water pump. The tensioner pulley ensures that the belt remains properly aligned and connected to these components, which enables them to work at their peak performance.

The tensioner pulley is comprised of two main parts, a pulley wheel and a tensioner arm. The pulley wheel aids in maintaining the tension in the belt by rotating with the belt as it moves around the pulleys. The tensioner arm is attached to the pulley and is what applies precise tension to the belt.

Failing to maintain proper tension in the accessory belt can lead to premature wear, decreased power, and increased vibrations in the engine. To prevent this, regular inspections of the accessory belt and tensioner pulley should be done to ensure they are in proper working condition.

### Features:

**Efficient Belt Tensioning:** Our tensioner pulley is engineered to ensure optimal tension on the accessory belt, which helps to promote operational efficiency while also preventing belt slippage -- that could lead to decreased system operation.

**Smooth and Quiet Operation:** The tensioner pulley is made with high-quality bearings that reduce friction and make for a quieter, more pleasant driving experience. This effect is stabilized by the consistent belt tension.

**Durable Construction:** Our tensioner pulley is able to withstand the wear and tear of daily driving -- thanks to the durable materials used to construct its parts. These materials also offer excellent resistance to heat, wear, and corrosion, thus making for a reliable part that will last.

**Precise Fit and Compatibility:** Our tensioner pulleys are designed to fit various vehicle makes and models, with each pulley meeting the specifications of the original equipment. This means the pulley will have a precise fit and perfect alignment with the accessory belt.

**Quality Assurance:** Our tensioner pulleys have gone through tests to ensure that they meet (or exceed) industry standards. Furthermore, they have been produced by trustworthy suppliers, thereby giving you reassurance that you're using/installing a dependable component.

### Support and Services:

**Belt Tensioner Pulley Technical Support and Service**

We are committed to providing our customers with the best possible service. We understand the importance of keeping your Belt Tensioner Pulley in top condition and providing technical support and service when needed. Our team of experts are available to answer any questions or concerns you may have about the product.

We offer a wide range of services, from installation and maintenance to technical support. Our team of experienced technicians can diagnose and troubleshoot any issues you may have with your Belt Tensioner Pulley. We also provide preventive maintenance services that can help keep your device running smoothly and extend its lifespan.

For more information on our technical support and service, please visit our website or contact us directly. We look forward to helping you keep your Belt Tensioner Pulley in top condition.

### FAQ:

#### 1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

#### 2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

#### 3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years

**A large of stock**

**Professional export company**

**Accept small order**

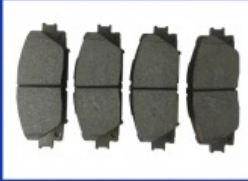

**We can design anything well according to customers' requirment**
