Car Belt Tensioner Pulley Replacement 16603-0C013 For Hyudnai Accent

Our Product Introduction

For more products please visit us on automobile-sparepart.com

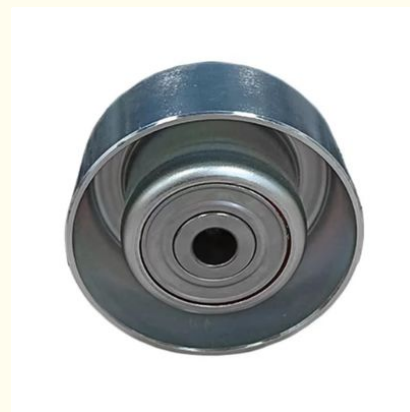

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 16603-0C013
- Minimum Order Quantity: 20 PCS
- Price: \$5.88 ~ \$6.88
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box, Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 50000 pcs per month

Product Specification

- Product Name: Belt Tensioner Pulley
- Package: Any Color Box According To Customers' Requirement
- Car Make: For Hyudnai Accent For Kia Rio
- Warranty: 12 Months
- Quality: 100% Tested
- Type: Auto Replacement
- Highlight: **Car Belt Tensioner Pulley,
Belt Tensioner Pulley Replacement,
16603-0C013**

Product Description

16603-0C013 Belt Tensioner Pulley 16603 0C013 For Hyudnai Accent For Kia Rio

Product Description:

A **tensioner pulley** is a highly important part of a car's accessory belt system. It carries an essential role in the system by *maintaining proper tension in the accessory belt*. That belt is responsible for various mechanical operations in the engine, such as driving the alternator, power steering pump, air conditioning compressor, and water pump. Thus, the tensioner pulley ensures that the belt is correctly aligned and engaged with the components, allowing them to perform at their optimal level.

Features:

Efficient Belt Tensioning: Our tensioner pulley is specifically designed to maintain the desired tension on the accessory belts, providing an optimal power transmission to different system components, such as the alternator, air conditioning compressor and power steering pump. As it helps prevent belt slippage, this ensures an efficient operation and a better system performance.

Smooth and Quiet Operation: The tensioner pulley is equipped with high-quality bearings that grant a smooth rotation, helping to reduce the friction and noise considerably. This results in a quiet drive, even when delivering a consistent belt tension.

Durable Construction: This tensioner pulley is built to offer long-term resistance to wear and tear, and is able to withstand the demanding conditions of daily driving. Its construction with durable materials provides a superior resistance to heat, wear and corrosion, which is essential for ensuring reliability over a prolonged period of time.

Precise Fit and Compatibility: We provide a wide range of tensioner pulleys, fitting different car models and makes. Each pulley is designed to guarantee a precise fit and proper alignment with the accessory belt, as it has been engineered specifically to match the original equipment specifications.

Quality Assurance: Our tensioner pulleys have gone through intensive testing and comply with industry quality standards. We select renowned suppliers who are devoted to assure a high-performing product, granting you a piece of mind when installing it.

Support and Services:

Belt Tensioner Pulley Technical Support and Service

We provide technical support and service for our Belt Tensioner Pulley products. Our experts are available 24/7 to answer any questions you may have. We provide comprehensive support and service to ensure that your Belt Tensioner Pulley products perform optimally and last for years to come.

Our technical support team is knowledgeable and experienced, and can provide assistance with installation, troubleshooting and repair of Belt Tensioner Pulley products. We also provide regular maintenance and preventive service to ensure that your product is running smoothly and efficiently.

We are committed to providing the best service and support for our customers. If you have any questions or concerns regarding your Belt Tensioner Pulley product, please contact us and we will be happy to help.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
